FAREWELL RECEPTION.

Tendered at Y. M. C. A. Last Evening to Secretary Baker.

With that spontaneity which springs from true friendship the members and friends of General Secretary W. G. T. Baker rallied at the local rooms last night for an evening of social intercourse and farewell expressions.

Mr. Baker has been with us about two years. In that time he has grown into the hearts of the members of the Y. M. C. A. as no other ever did. He possesses the power of mingling, influencing and leading with that rare and subtle power many times dreamed of but rarely seen.

During the evening, the pleasures of which were purely informal, about fifty young men came in and none left till it was over, about 10 o'clock.

President Cochran of the Board of Directors presented Mr. Baker with a purse of gold, which will provide him with a ticket to Boston and return, to attend the World's Congress of Y. M. C. A. General Secretaries, convening in that city next Wednesday.

Ice cream and cakes were served, speeches made; songs and music and regret and sorrow.

The Rev. F. W. Harrop will take charge of the Y. M. C. A., beginning Monday, when Mr. Baker leaves. This arrangement will last till September, when a new Secretary will be called.

GRANDLY ENTERTAINED.

That is What Richmond Elks Say of Their Recent Visit Here.

Richmond, Pa., July 3.—Being handed around on silver waiters and treated to the traditional good time is simply tame compared to the royal treatment accorded the visiting Elks at Mayville Wednesday evening. The occasion was the installation of a lodge in that city. Cynitha officiated, assisted by Paris, and about twenty members from Richmond. Those who went from here are unstinted in their praise of Mayville hospitality. Banqueted, toasted and given freedom of the city, they were indeed told to leave, and did so sincerely anticipating some opportunity to reciprocate.

THE ARCHPELAGO.

New Civil Government for the Philippines Under Consideration by the Executive.

A GOVERNOR AND OTHER OFFICERS.

This Government Will Control All Civil Affairs, But It Will Be Under the War Power.

The New Arrangement Will Be Similar to That Which Existed in the Early Days of New Mexico.

Washington, June 7.—The new civil government to be established in the Philippines is receiving the consideration of the president and the secretary of war. It will differ very little from what was first intended, as there will be a governor for the archipelago and a legislative council and other officers. This government will have control of all civil affairs, but it will be under the war power to the extent of being directed by the secretary of war. There will be no distinction as to the authority of the general commanding the troops in the Philippines, and the governor to be appointed under the civil government. No official declaration has been made as to which will be the supreme authority, but it is known that the secretary of war will be supreme. While it is not the intention of the president to make the Philippines under the Spooner law, that law will be taken as sanctioning what is to be done. The new government will be similar to that which existed for a short time in the early days of New Mexico. There was a civil governor appointed by the president and a commanding general. Both had their functions in preserving the peace and controlling the affairs of the territory.

ACID HYPEROXIDES.

An Important Antiseptic Discovery By Two Noted Physicians Made Public.

Ann Arbor, Mich., June 7.—An important antiseptic discovery upon which Dr. Frederick G. Noy and Paul C. Freer have been working for over a year in their respective laboratories at the University of Michigan, has been made public. The new antiseptics are organic acid hyperoxides. In a water solution five one-thousandths of one per cent. of active oxygen derived from the hyperoxide is fatal to all bacteria. The hyperoxides which was used for the disinfectant, and this, as was shown by experiments, could be taken internally in large doses without poisoning effect. The discovery may, it is claimed, lead to the further discovery of other fundamental causes in an important field of medical and surgical science.

Quincy, Ill., June 7.—Evelyn B. Baldwin, in company with Sam Baldwin, a Quincy aeronaut, left here Thursday on a balloon voyage. The balloon rose to a height of two miles and sailed away in a clear sky in a southeasterly direction. Evelyn B. Baldwin is the head of the Baldwin-Ziegler-Aretic expedition, and he came here to take this trip on an educational tour. His expedition has been through a yelped with balloons and balloon cutters.

LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

Watch our next advertisement.

You want **LION COFFEE** because it is **LION COFFEE**.

If, on the other hand, you want a coffee which, in order to hide imperfections, is "highly polished" with eggs and other preparations, then do not buy

LION COFFEE.

If **LION COFFEE** were common, ordinary stuff, coffee drinkers would not insist on having it. It is used in millions of homes because it is the **best coffee in the world for the price**. If you doubt this, take a single package home and try it.

In every package of **LION COFFEE** you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).

An Open Letter.

We desire to say that our business since January 1st has passed the mark anticipated. We wish to be frank; therefore we are not attempting to talk to business people and put it in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in fine words? Most of them seem to say something that means nothing. Names are invented for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to cause the product, because the product has no merit. Fine feathers make fine birds, but fine words do not make fine goods. We are strong believers in advertising because it is a good thing, but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as is consistent with legitimate business methods.

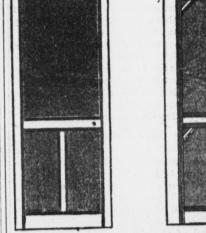

Our importing of Dress Goods, White Goods, Carpets, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,
GEORGE BAX & SON,
82 years selling good goods.
